ABOUT US

Bitchainflow is a global systematic investment platform. Our centralized research focuses on the development of advanced quantitative techniques for uncovering market opportunities and employs them within a disciplined framework that results in efficient exposures.

With a robust infrastructure and talented investment professionals, Bitchainflow offers clients the scale of a large asset management firm, with the benefits of a versatile investment platform – flexibility and customization. Our firm is able to offer institutional and retail investors the essential building blocks for today's changing investment landscape.

Using advanced methods of making business and a personal approach to each investor, we propose a novel financing example to people who want to maximize earnings, but also as a strong source of solid returns.

Bitchainflow company uses only advanced trading tools and trades at the most steady markets, which minimizes the uncertainty of financial loss to investors and guarantees them a steady income accrued every calendar day.

OUR PRINCIPLES AND AMBITIONS

WE APPROACH SUSTAINABILITY FROM THREE PERSPECTIVES: AN ASSET OWNER, AN ASSET MANAGER, AND AS A COMPANY IN OUR OWN RIGHT

While our responsibilities and obligations in each of these three roles may differ, as we discuss below, our approach in all three is united by a common set of principles and ambitions, set out in the box at the bottom of the page.

We serve as an asset owner on behalf of Prudential With-Profits policyholders, and our pensions and annuity customers. This means we make decisions about how to allocate money to different asset classes and which asset manager should manage our money.

We also have the important responsibility of deciding the financial outcomes we want our asset managers to deliver for us, and the sustainability considerations we require them to apply.

For example, if we think that a certain industry does not have a sustainable future, we may require that the asset manager does not invest in that industry. Our responsibility as an asset owner is to create the best customer outcome in terms of general well-being in line with our fiduciary duty, taking into consideration financial security.

We also invest as an asset manager on behalf of individual savers and asset owner clients. As at 31 December 2020, we manage over £233.4 billion for external clients and £133.8 billion on behalf of our internal client.

As an asset manager, we must aim to deliver the financial outcomes and any sustainability requirements set out in the objectives of each of our mutual funds, or in the mandates we receive from institutional clients. Sometimes there may be differences in the sustainability criteria that external clients mandate, and in turn these may differ from the requirements of our internal client.

While our values of care and integrity inform all our sustainability work, the asset manager and asset owner are separately regulated businesses with independent Boards and governance processes, and their policies may diverge on occasion.
